

**enzyme**

The Science of Game Testing™

## EXPERIENCE IN CANADA!

Our company is looking for **Linguistic testers (internships)** who have the following profile:

- Interest for video games
- Knowledge of one of the following languages, both written and spoken: Swedish, Finnish, Danish or Norwegian.
- Able to read and write in English

We're looking for motivated and bilingual people with a passion for gaming, who can test and verify the different elements of a game: language, idioms, expressions, localization.

We need people who can spot mistakes in games and report them.

Enzyme Labs is the Canadian leader in video game testing. We carry out a wide variety of tests for international clients. With over 100 employees from around the world, we offer a young and dynamic environment.

Internship location: Sainte-Adèle, Québec, Canada

Internship duration: From 3 to 12 months
